
All of the water currently on the planet is all that there will ever be. Through the water cycle it is in endless motion on Earth's surface, below ground and in the atmosphere. Water/Ways explores this cycle, water's effect on landscape, settlement and migration, and its impact on culture and spirituality. It looks at how political and economic planning have long been affected by access to water and control of water resources. Human creativity and resourcefulness provide new ways of protecting water resources and renewing respect for the natural environment.

Exhibit Open Hours:

Sat., Nov. 19 - 9 am-7 pm

Learn more>>

The Smithsonian Water/Ways Exhibit will be hosted at the Audubon Center of the North Woods from mid-November through the end of the year. We hope you and your family or group have the opportunity to join us as we celebrate this tremendous learning opportunity and share in our enthusiasm to engage and educate individuals about our most important resource - WATER!

November 19 - December 31

FREE and open to the public.

This is wonderful, educational event is perfect for families, youth groups, schools, scout troops, etc.

Hope to see you at Water/Ways!!
