Excavation Application Form**

Prior to the date of excavation have the size of all corner search areas minimized by performing all surveying control scenarios in advance.

Be prepared on the date of excavation to set a PLSS corner monument by found, obliterated or lost corner methods.

The applicant is responsible for contacting Gopher State One Call (800-252-1166) to verify underground utilities. The applicant is responsible for notifying Pine County that no underground utilities exist near the excavation site(s). If underground utilities do exist near the excavation site(s) then it is the applicant's responsibility to have Gopher State One Call or its agent mark said underground utilities. Utility markings must be visible on the date of excavation or the excavation will not occur.

The applicant is responsible for notifying any municipal and/or town boards in regards to the excavation(s) with ample time that said notification can be placed on their agenda and reviewed prior to the date of excavation.

If your application for corner excavation is approved Pine County will contact the applicant in writing for scheduling of the excavation(s).
