

EMERGENCY GUIDELINES

In case of a medical emergency, transport the client to the nearest medical facility capable of treating the illness or injury, if possible.

If you have access to a cellular phone or are nearer a phone than a hospital, call 911 for assistance if needed.

After securing emergency aid for the client, fill out the Incident Report and contact the County office.

EMERGENCY MEDICAL PROCEDURES DISCLAIMER

As a Volunteer Driver for Pine County, I acknowledge that I have no specialized training or certifications in providing emergency medical care to the people I transport.

In the event of a medical emergency, I will follow the rules of Minnesota Statute 604A.01 – Good Samaritan Law, “to provide reasonable assistance without danger to self or others.”
